National Furniture Company FOB Relocates/Expands Office from Charlotte NC to Fort Mill SC

(Fort Mill SC, January 9, 2012) After operating eight years in Southern Charlotte, FOB Charlotte (newly renamed FOB) has relocated its corporate headquarters to Fort Mill SC. FOB--based on the shipping freight term “Freight on Board”-- is an import furniture company focusing on several segments--including student housing and military housing.

According to President and Founder Brian Hunt, the company made the move to better accommodate its warehousing and distribution needs as well as several more employees it has hired lately. “Because of our recent and planned growth we needed more space, convenient highway access and found the 20,000-square-foot warehouse in Fort Mill really met these criteria.”

Founded in 2003 and based in Fort Mill SC, FOB serves all regions of the nation. Its core business is designing furniture specific to a company’s needs, then fulfilling the goods direct from international sources where there’s no middle man. FOB then delivers these custom, high-quality furnishings on-time, everytime.
